

2011 UNITE
Education
PROGRAMME

Unite Education

Unite is a union establishing new traditions and structures relevant to the needs of our members who are currently experiencing life in the modern workplace. Unite is dedicated to serving the best interests of its members and will seek to improve their standard of living and the quality of their lives through effective relationships with employers and government and sustainable workplace organisation.

Unite's vision is of a prosperous society in which employers and employees work together to build successful businesses and safe, healthy working environments. All those who contribute to their success receive the rewards, respect and recognition they deserve. That's why Unite Education has at its

core the delivery of our union's policies based on the three pillars of the Unite vision: organising, global solidarity and politics. This vision is reflected in our Education Programme where training our representatives is a key priority of the union. The development of workplace reps, safety reps, learning reps and equality reps is essential in order to give the support that our membership needs and expects; and that the union is committed to providing. Unite Education provides focused education to ensure that representatives have the required confidence, attitude and skill set to deal with workplace, national and international issues. This empowers our representatives to win in the workplace, successfully campaign, organise for growth and promote dignity and respect.

When it comes to education, Unite puts its money where its mouth is – providing accredited 'fit for purpose' education programmes that are easily accessible, cater for differing learning styles and are free to access all over the United Kingdom and Ireland.

So please take advantage of our courses and enjoy yourself, in solidarity

JIM MOWATT, Director of Education
