

SOLIDARITY TO THE BA FLIGHT ATTENDANTS

The Italian Unions Filt-Cgil, Fit-Cisl, Uiltrasporti strongly support the industrial action of BA flight attendants. The position of BA is a dangerous attempt to reduce the employments conditions of the crew and because for sure the other EU Companies in a short time will do the same with their employees in name of a principle of competition we do not accept.

Filt-Fit-Uiltrasporti stigmatize the neutral attitude of the Pilot Union BALPA because in this particular moment of crisis for the civil aviation the pilots must support their colleagues in order to be stronger and in name of the solidarity among all the workers.

Filt-Fit-Uiltrasporti hope in a change of position of British Airways and ones again stress the principle that there is the danger to see tomorrow all the terms and conditions of employments not only for flight attendants but also for pilots reduced in all the EU Companies.
