In their own words...

“THE PARTY IS CONTROLLED BY A HIERARCHY OF HAS-BEENS WHO SLIPPED INTO OFFICE. THERE ARE BULLIES IN THE PARTY AND THEY HAVE POWER.”

Tim Wilson former UKIP candidate for South Northamptonshire explaining why he quit the party

“I would argue that the very existence of the NHS stifles competition, and as competition drives quality and choice, innovation and improvements are restricted. Therefore, I believe, as long as the NHS is the ‘sacred cow’ of British politics, the longer the British people will suffer with a second-rate health service.”

Paul Nuttall MEP, the vice-chair of UKIP, posted on his own website, June 2014. He has since taken it down.

“Why can’t I say in my own bloody country black is still a colour and gay are still queers?”

Nick Griffin BNP Party Chairman 2011

Nick Griffin, former leader of the BNP, said he will be voting UKIP to shake up the political system.

Alan Harris – UKIP Parliamentary Candidate Oxford West & Abingdon

Vote Labour on 7 May
In a few days time you will get the opportunity to vote in the General Election. One of the parties looking for your vote is UKIP. For some of you their message might seem attractive but scratch the surface and you will find that they could make life for you and your family much worse.

The NHS

**UKIP will:**
Secret documents show that UKIP will introduce a US private healthcare insurance system.

**Labour will:**
Strengthen and protect our health service, training an extra 1,000 doctors, nurses and other healthcare professionals in Wales to target areas of greatest need. Labour in Wales has protected the NHS from privatisation and brought in free prescriptions.

UKIP and Workers

**UKIP will:**
Scrap statutory workplace rights – rights won through the EU include paid holiday, sick pay, maternity/paternity leave, discrimination and redundancy pay.

**Labour will:**
Raise the minimum wage, make Government contractors pay the Living Wage, abolish zero hour contracts, end bogus self-employment, halve number of people on low pay, and adopt measures to put young people back to work.

UKIP and the EU

**UKIP will:**
Threaten the jobs of over 3 million UK workers who’s employment is linked to the EU by threatening to leave the EU. Leaving the EU will also end the right to equal treatment for agency and part-time workers and the many safety regulations that help to protect our workforce, measures that have repeatedly been opposed by UKIP MEPs.

UKIP and Tax

**UKIP will:**
Slash tax for the highest paid so that millionaires will pay little more than working families.

**Labour will:**
Introduce a new lower 10p starting rate of tax benefitting 24 million people, reverse cuts to the top rate of tax by restoring the 50p rate so that the richest 1% pay their fair share, tackle tax avoidance and tax bankers’ bonuses.
