

STAY SAFE | GET A JAB

Your union wants to keep you safe from Covid-19

"Please take the vaccine ... it is the only way we are going to get back to anything approaching a normal life. My experience of having the vaccine itself was very good."

Laura. NHS worker. Unite rep

COVID-19 has devastated families and communities but Unite has been working tirelessly to keep you safe through this crisis.

Unite members are involved in the production, distribution and administration of the life-saving vaccines that offer a bridge to a safer world.

JAB FACTS

- The vaccines are very safe.
- The approved COVID-19 vaccines do not contain any animal products or egg.
- The vaccine does not alter your DNA, nor does it contain a microchip or tag.
- You don't pay for the vaccine.

Please trust your union to keep you safe.
When it's offered, take the jab.

Let's protect one another.
