DEAR MP

I hope you have a happy Christmas this year.

Sadly, thousands of people in our community are facing Christmas with dread. Worrying about how they’ll put food on the table and heat their homes after losing £90 a month of Universal Credit.

Soaring food and energy costs plus next year’s National Insurance hike will make life even harder.

The truth is the £20 a week cut to Universal Credit was a bad decision, taken at the wrong time.

You can help put it right.

Contact the chancellor, Rishi Sunak and tell him to give it back and extend to all claimants.

Please write back to me with his reply.
