## London is facing the biggest bus cuts for decades

At least 250 buses and 16 routes could be axed, under controversial Transport for London (TfL) plans.

### We can't let this happen.

Cutting these services is a raw deal for Londoners and the workers who keep our capital working, the cleaners, NHS workers, hospitality workers and so many more.

Londoners didn't cause TfL's funding crisis – the pandemic did, but we shouldn't have to pay for it with cuts to our bus services.

### We believe the bus cuts will:

- Make journey times longer and much more expensive.
- Be bad for the environment – fewer buses means more polluting cars on our roads.
- Be bad for all Londoners - leading to overcrowding and more congestion on our roads.
- Be hardest on London's poorest communities – cutting people off from the rest of the city.
- Be bad for bus workers – leading to job losses and pay cuts.

## SPEAK OUT – MAKE YOUR VOICE HEARD

**Tell TfL its plans won't work.**

**Take our poll!**
